NPK at CONEXPO – CON/AGG 2008 - A Great Success

More than 144,600 industry professionals from around the world attended ConExpo - Con/Agg & IFPE 2008 during their five-day run March 11-15, at the Las Vegas Convention Center. The show covered more than 2.4 million net square feet with 2,651 exhibitors, and was 21 percent bigger than the last show, held in 2005.

NPK displayed 26 pieces of equipment including 14 hydraulic hammers featuring our newest GH-23, 6 compactor/drivers, 2 material processors and 2 concrete crushers, as well as the latest addition to our extensive product line, 2 models of our innovative breaker buckets.

Representatives from NPK Japan and NPK Europe were on hand and the show was a great success with unprecedented traffic within our display.

Pictures of NPK equipment and booth can be viewed on the following pages.

NPK Hydraulic Hammers

Including the new GH-23 Hammer

Extensive line of Compactor/Drivers
