

## Personnel Changes at NPK

After nearly 20 years of exemplary service with the NPK Sales Department, Jay Noel has decided to move on. Jay played a decisive role in the growth and prosperity of NPK so please join us in wishing him the best in his new venture.

Ken Skala has accepted the sales territory responsibilities of Mr. Noel leaving the position of Product Support Manager that he held for 18-1/2 years. Ken will manage the Eastern Midwest and Central Atlantic Coast sales territory.

With Ken's moving on to the Sales Department, Mike Rzeszotarski has accepted the position of Product Support Manager. With over 9 years in the Design Engineering Dept. and working closely with the Service Department, Mike's wide array of experience should be a great asset to NPK.

Please welcome Ryan Perkins to NPK. Ryan will be our new Central U.S. Field Service Representative. Ryan lives in St. Louis, Missouri and has worked in the service department at our dealer Erb Equipment.
