

## ANNOUNCING NEW SMALL E-SERIES HAMMER MODELS

NPK is pleased to announce the introduction of our new small E-Series hammers. The new small E-Series will replace the H-Series hammers from H-06X and larger. This introduction completes our E-Series Hammer Product Line. Below is a chart showing the H-Series models and their new E-Series replacements.

Old H-Series	NEW E-Series
H-06X	E-200
H-08X	E-201
H-1XA	E-202
H-2XA	E-203
H-3XA	E-204
H-4XL	E-205
H-6XA	DISCONTINUED
H-7X	E-207
H-8XA	E-208

### ***Key Features and Benefits***

The new small E-Series hammers have several new features and improvements to enhance productivity and reduce operating cost!

- ***Higher Frequency*** - High frequency allows the hammer to penetrate concrete, asphalt and soft rock quickly and effectively.
- ***Higher Impact Energy*** - Combined with High Frequency gives NPK hammers superior performance.
- ***Simple Tool Retaining System*** - Allows for quick and easy tool removal.
- ***Flat Top Hammer Bracket Design*** - Allows for top mounting plates to conform to specific carrier geometry.
- ***Auto Lube Port (E-203 and Larger)*** - Help extend the service life of the demolition tool and tool bushings.
- ***Optimum Hammer to Carrier Compatibility*** - By matching the carrier and hammer precisely and maintaining the correct hydraulic flow and pressure, NPK Hammers ensure peak performance whatever the application.
- ***Service Life*** - With over 35 years experience, NPK hammers stay on the job longer, regardless of how tough the conditions.
